### Section 5: Fire Fighting Measures

**General Info:** O4Os is a strong oxidizer and may react explosively with many organic compounds. Risk of fire and explosion when mixed with combustible substances. No contact with flammable substances. Not combustible but enhances combustion of other substances. Emits toxic fumes under fire conditions

**Extinguishing** Suitable: Carbon dioxide, dry chemical powder, appropriate foam

**Method / Equipment:**

**Hazardous Constituents associated with burning / combustion are to be considered toxic. Firefighters should wear self-contained breathing apparatus and full protective gear.**
Section 6: Accidental Release Measures

Personal precautions, protective equipment and procedures:
SWEEP SPILLED SUBSTANCE INTO CONTAINERS; IF APPROPRIATE, MOISTEN FIRST TO PREVENT DUSTING THEN REMOVE TO SAFE PLACE. DO NOT ABSORB IN SAWDUST OR OTHER COMBUSTIBLE MATERIAL. DO NOT LET THIS CHEMICAL ENTER THE ENVIRONMENT. ADDITIONAL PERSONAL PROTECTIVE EQUIPMENT: full face shield and proper respirator for acid gas and dust/mist/fume. Ventilate area and wash spill site after

Containment: Large Spills: Contain actively spilling material if safe and easy to do so, avoid generating dust.

Equipment and Procedures:
Collect material and dispose

Small Spills: Sweep and collect to waste receptacles.

Cleanup Procedures:
Collect all contaminated media, or other cleanup materials into a waste receptacle. If cleaning surface is necessary, utilize vacuum cleaner, provided adequate ventilation is available.

Section 7: Handling and Storage

Safe Handling: Do not handle until all safety precautions have been read and understood. Keep containers tightly closed. Ensure adequate ventilation. Avoid breathing dust. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Wear appropriate personal protective equipment and wash thoroughly after handling. Avoid contact with eyes, skin and clothing. Avoid breathing dust or solution spray. Avoid exposure to vapor. Avoid prolonged or repeated exposure. Keep container closed when not in use. Use only with adequate personal protection. Use with local exhaust ventilation. Use only in closed systems. Use NIOSH approved respiratory protection.

Recommendations for Storage:
Store in cool, dry area in a tightly closed product container under an inert atmosphere. Do not store directly on ground and store away from sources of ignition or flame.

Other Precautions:
0.1 mg/m³ supplied air respirator with a full face piece, any self-contained breathing apparatus with a full face piece. Any chemical cartridge respirator with a high efficiency particulate filter with a full face piece and cartridges providing protection against osmic acid. Any air-purifying full face piece respirator (gas mask) with a chin style or front or back mounted canister providing protection against osmium tetroxide and having a high efficiency particulate filter. 1 mg/m³ any supplied air respirator with a full face piece and operated in a pressure-demand or other positive pressure mode.

Section 8: Exposure Control / Personal Protection
