

Safety Data Sheet

29 CFR 1910.1200

Section 1: Company and Product Identification

Product Name: Rhodium (II) heptafluorobutryate dimer

Product Code: 7049

CAS #: 73755-28-9

Company: Colonial Metals, Inc.
 Building 20
 505 Blue Ball Road
 Elkton, MD 21921 United States
 Company Contact: EHS Director
 Telephone Number: 410-398-7200
 FAX Number: 410-398-2918
 E-Mail : info@colonialmetals.com
 Web Site: www.colonialmetals.com

www.colonialmetals.com

Emergency Response: Supplier Emergency Contacts & Phone Number
 Chemtrec: 800-424-9300
 World Wide - Call COLLECT to U.S: 703-527-3887

Section 2: Hazards Identification

GHS07

BLANK

BLANK

BLANK

Hazard Pictograms:

Signal Word: Warning

Hazard Category: Acute tox, inh. Cat 5
 Skin corrosion/irritation Cat 3
 Serious eye damage/eye irritation Cat 3
 Aspiration hazard Cat 2
 Acute tox, oral Cat 5

Hazard Statements: H333: May be harmful if inhaled
 H316: Causes mild skin irritation
 H320: Causes eye irritation
 H305: May be harmful if swallowed and enters airways
 H303: May be harmful if swallowed

Precautionary Statements: P301+312: IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel
 P337+313: If eye irritation persists get medical advice/attention
 P308+313: IF exposed or concerned: Get medical advice/attention

Hazards not otherwise classified: Conditions Aggravated By Exposure
 May cause irritation to the respiratory tract and mucous membranes. May be harmful if inhaled.
Conditions Aggravated By Overexposure
 To the best of our knowledge the chemical, physical, and toxicological effects of this compound have not been thoroughly investigated.

Section 3: Composition / Information on Ingredients

Hazardous substance (name)	Hazard Category	CAS#	Weight %
Rhodium (II) heptafluorobutryate dimer	No ingredients are hazardous according to OSHA criteria	73755-28-9	100
Chemical Name: Rhodium (II) heptafluorobutryate dimer Chemical Family: Organometallic Complexes Chemical Formula: [Rh ₂ (O ₂ CC ₃ F ₇) ₂] ₂			

Section 4: First Aid Measures

- General Info:** Dust may cause irritation of the respiratory system. Maintain housekeeping and personal hygiene to minimize
- Notable Exposure symptoms:** Irritation to skin, eyes and areas of contact.
- If ingested:** Rinse mouth. Seek immediate medical attention. Clear the airway and administer artificial respiration if not breathing.
If swallowed, do not induce vomiting unless directed to do so by medical personnel.
- If inhaled:** Remove the victim from the contaminated area while protecting yourself from exposure by wearing an appropriate respirator. Put a similar respirator on the victim if possible. Get medical attention *immediately*
- Eye contact:** Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do. Get immediate medical attention.
- Skin contact:** Flush area for 15 minutes with water and wash with soap and water. Contact a physician immediately. Remove contaminated clothing and shoes and wash before reuse.

Section 5: Fire Fighting Measures

- General Info:** Use proper safety equipment. Material is capable of creating a dust explosion. Emits toxic fumes under fire conditions.
- Extinguishing Method / Equipment:** Use water spray, dry chemical, carbon dioxide, or appropriate foam.
- Hazardous Decomposition Info:** Constituents associated with burning / combustion are to be considered toxic. Hydrogen chloride gas, carbon monoxide, carbon dioxide, phosphorus oxides and/or phosphine. Firefighters should wear self-contained breathing apparatus and full protective gear.

Section 6: Accidental Release Measures

- Personal precautions, protective equipment and procedures:** Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate respiratory protective equipment and clothing during clean-up. Avoid breathing dust. Ventilate area if easy to do so, Contact local authorities if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
- Containment Equipment and Procedures:** Large Spills: Contain actively spilling material if safe and easy to do so. Do not let product enter drains. Sweep or soak up and place in sealed container for reclamation or disposal, taking care to avoid dusting. Ventilate area and wash spill site after pick-up is complete.
- Small Spills: Sweep or soak up and place in sealed container. Taking care to avoid dusting.
- Cleanup Procedures:** Contain spillage and then collect with an electrically protected vacuum cleaner or by wet brushing and place in container for disposal according to local regulations.

Section 7: Handling and Storage

- Safe Handling Precautions:** Do not handle until all safety precautions have been read and understood. Keep containers tightly closed. Ensure adequate ventilation. Avoid breathing dust. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Wear appropriate personal protective equipment and wash thoroughly after handling. Keep away from ignition sources.
- Recommendations for Storage:** Store in cool, dry area in a tightly closed product container away from sources of ignition or flame. Containers which are opened must be carefully resealed and kept upright to prevent leakage.
- Incompatibilities:** Strong oxidizing agents.

Section 8: Exposure Control / Personal Protection

- General / Engineering Controls:** Ventilation: Local Exhaust: Required in handling area. Mechanical: Desirable to insure concentration of material below TLV/TWA levels. Other: Closed Ventilation system - Dust (Laboratory Fume Hood)
- Work Clothing:** Protective work clothing which covers skin and prevents exposures.
- Eye/face protection:** Wear safety glasses with side shields or goggles or face shield.
- Skin Protection:** Wear chemical resistant gloves.
- Respiratory Protection:** Utilize organic vapor respirator if airborne levels are not maintained or if ventilation is inadequate. Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN(EU).

Section 9: Physical and Chemical Properties

State: Solid	Melting Point: > 300 °C	Freezing Point: N/A
Color: Blue-Green Powder	Boiling Point/Range: N/A	pH: N/A
Molecular Wt.: 1,057.93	Odor: Odorless	Water Solubility: Insoluble
Specific Gravity: N/A	Flash Point: N/A	Part. Coeff (n-octanol/water): N/A
Upper Flam Limits: N/A	Lower Flam Limits: N/A	Vapor Pressure: N/A
VOC Content (lbs/gal): N/A	Viscosity: N/A	Autoignition Temp: N/A

Section 10: Stability and Reactivity

General: This product is stable and non-reactive under normal conditions of use. Product is not subject to hazardous polymerization. Avoid open flame and ignition sources.

Stability: Stable

Conditions to Avoid: Elevated Temperature

Incompatible materials: Strong oxidizing agents.

Decomposition products: Carbon oxides, Hydrogen fluoride, Rhodium/rhodium oxides

Section 11: Toxicological Information

General Information: To the best of our knowledge the chemical, physical, and toxicological effects of this compound have not been thoroughly investigated.

Likely Routes of Exposure: Eye Contact
Skin Contact
Inhalation
Ingestion - possible, but considered unlikely.

Toxicological Information (contained substances)

Sensitization: Product is not expected to be a sensitizer.

Section 12: Ecological Information

General information: No data available

Aquatic toxicity: No data available

Degradation / Mobility info: No specific data available.

Bioaccumulative potential: No specific data available.

Section 13: Disposal Information

Product disposal: Place in a sealed container. Consult Federal EPA, State and local regulations for proper disposal/recycle/reclamation
NOTE: Chemical additions, processing, or otherwise altering this material may make the waste management information presented above incomplete, inaccurate, or otherwise inappropriate.

Container disposal: Treat empty containers with extra care. Consult waste contractor.

Section 14: Transport Information

DOT: Considered non-hazardous for transport

IMO/IMDG: No data available

IATA: Same as DOT 49 CFR regulations. Consult IATA before shipping

Section 15: Regulatory Information

TSCA: Not Listed in the TSCA

U.S. Regulatory Information: CAS # 14694-95-2 is listed on the TSCA inventory

Canadian DSL: This product has been classified in accordance with the hazard criteria of the CPR and the MSDS contains all of the information required by the CPR.

DSL: No

NDSL: Yes

European Union S: 22-24/25

(EU) Regulatory Information: Do not breathe dust. Avoid contact with skin and eyes

Section 16: Other Information

NFPA Rating

Health: 1

Fire: 0

Reactivity: 0

HMIS Rating

Health: 1

Fire: 0

Reactivity: 0

Personal

Protection: E

Precautionary Label: May be irritating to eyes and skin

***Disclaimer:** In compliance with the OSHA Hazard communication Standard, 29 C.F.R 1910.1200, we are providing you with a Materials Safety Data Sheet (MSDS) for the hazardous material you are purchasing.*

It is your responsibility to educate your employees on the safe use of the hazardous material. With this in mind, a copy should be forwarded to the supervisor of the user or to the user themselves, and copy should be retained in your files for future reference.

Colonial Metals, Inc. makes no presentation as to the accuracy of the information in the MSDS. The information is believe to be correct; however, you (the customer), should preform your own investigation and independent verification. If you resell the product, you are responsible to forward the information in the MSDS to your customer.

Colonial Metals, Inc.
